

TOXIC ENERGY

Toxic Energy is a six-piece punk rock band from Orange County, CA, driven by a shared passion for music that cuts across genres while staying true to punk roots. Built on hard work, dedication, and integrity, the band has carved out their own path, refusing to compromise who they are or what they stand for.

With a bond that goes beyond words, Toxic Energy delivers honest, high-energy music and an unapologetically real approach. Having shared the stage with some of the biggest names in punk rock, the band keeps their focus locked on what's next never looking back. Their goal is to write the strongest music they can and open the doors to anyone who wants to be part of the family. There are no stop signs ahead.

Originally formed as a five-piece, Toxic Energy made the decision to expand the lineup to fully capture the sound and energy they envisioned. The addition of a sixth member brought more depth, power, and dynamics to the band, solidifying the lineup that exists today. Toxic Energy is made up of Greg Dickson on lead vocals, Brian Jones on bass and vocals, Brent Waterworth on guitar and vocals, Chris McBride on guitar, Shawn Keeney on guitar and vocals, and Rodney Peralta on drums.

Some acts we shared the stage with and festivals include: TSOL, DI, Suicidal Tendencies, Pennywise, Fear, The Dickies, The Queers, Agent Orange, Death By Stereo, DRI, The Vibrators, Strung Out, The Casualties, Narcoleptic Youth, Guttermouth, Nashville Pussy, Danko Jones, Lower Class Brats, Stalag 13, Mad Caddies, Kottonmouth Kings, Punk in the Park, It's Not Dead Fest, So Cal Hoedown and many more.
